PROFESSIONAL SUMMARY

Frontend Web Developer skilled in HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, and Next.js, with working knowledge of Node.js, Express.js, MongoDB, and REST APIs. Builds responsive, accessible, and performant user interfaces, with hands-on experience delivering full-stack projects through hackathons and structured MERN Stack training. Quick learner, comfortable with Git-based collaboration and translating designs into clean, reusable UI components.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Responsive & Mobile-First Design, Cross-Browser Compatibility, REST API Integration

Backend: Node.js, Express.js

Database: MongoDB

Tools & Practices: Git, GitHub, Agile/Scrum basics, MS Word, MS Excel, Tally

PROJECTS

MaintainAI — Asset Management System | *Next.js, Node.js, Express.js, MongoDB*

- Built a full-stack asset management system with user authentication and real-time asset tracking.
- Designed a responsive React/Next.js UI and RESTful API layer connecting the frontend to MongoDB.
- Developed as part of a hackathon under time constraints, coordinating scope and features with a team.

LearnTube — Learning Platform | *Next.js, TypeScript*

- Developed a responsive e-learning platform with categorized courses and video playlists.
- Implemented reusable, typed React components in TypeScript to improve maintainability.

TechSolution — E-Learning Platform | *HTML, CSS, JavaScript, TypeScript, React, Next.js*

- Built a modern, responsive learning platform featuring web development courses and curated resources.
- Focused on clean UI/UX and consistent component structure across pages.

Personal Portfolio Website | *React.js, Next.js*

- Built and deployed a responsive portfolio showcasing projects with live demo and GitHub links.

EDUCATION
